INTRODUÇÃO

A APES é uma associação sem fins lucrativos que tem como objectivo promover o desenvolvimento, discussão e divulgação da Economia da Saúde, entendida como aplicação da ciência económica ao campo da saúde.

De acordo com os seus estatutos, um dos meios para atingir esse fim é precisamente a organização e manutenção de serviços de informação e documentação.

Logo após a constituição da APES, em 1987, foi criado um *Centro de Documentação* que pretendia reunir material bibliográfico sobre Economia da Saúde e áreas afins, sobretudo aquele que era difícil encontrar noutros serviços de informação e documentação a nível nacional. Hoje em dia, o acesso à informação está bastante facilitado mas o *Centro* continua a ocupar um lugar de destaque na actividade da Associação, sendo usado sobretudo por profissionais de saúde investigadores e estudantes de pós-graduação.

O presente documento tem como objectivo divulgar a lista de obras não periódicas actualmente disponíveis no *Centro de Documentação*. No futuro, as novas aquisições serão divulgadas através do *Boletim APES* e da página Web da Associação. Informação sobre as publicações periódicas e a informação estatística disponível no *Centro de Documentação* estará também brevemente disponível na página Web.

O *Centro de Documentação* está localizado na *Sede da Associação*, situada na:

Escola Nacional de Saúde Pública, Universidade Nova de Lisboa
(Grupo de Disciplinas de Ciência Sociais em Saúde)
Avenida Padre Cruz, 1600-560 Lisboa
Tel. 21 751 2104; Fax 21 757 3536
apes@ensp.unl.pt.

O acesso físico ao *Centro de Documentação* é gratuito a todos os sócios da APES. As obras são normalmente emprestadas por um período de duas semanas. Em certos casos é possível facultar cópias de textos aos sócios mediante pagamento dos custos da reprodução.

As obras não periódicas listadas neste documento estão organizadas por tópicos de acordo com o seguinte esquema:

100 — Economia da Saúde — Geral	5
200 — Economia da Saúde — Temas	9
210 — Procura de cuidados de saúde	9

510 — Economia geral	34
520 — Economia pública e social.....	35
600 — Métodos quantitativos e informática	39
700 — Ensino e investigação	40

A experiência dos últimos anos demonstra que a manutenção e actualização do fundo documental da APES é um serviço útil para o desenvolvimento da Economia da Saúde em Portugal. Contudo, o sucesso do *Centro* depende do empenho e iniciativa dos associados. Torna-se necessário, portanto, que nos façam chegar sugestões sobre eventuais aquisições de material bibliográfico. Só assim a Associação poderá servir os seus sócios eficazmente.
